

Ileostomy Study

Researchers at Ulster University are testing leak sensor technology to help people who have ileostomies

We are looking for men and women aged 18 – 70 years with an ileostomy, who are willing to join a study testing an early warning device for stoma bag leaks

What is involved?

An initial study introduction session will be held to give you an overview of the device

You will be required to attend two appointments at Ulster University, Coleraine Campus over a 3 day period

If you are interested in taking part in the study or would like more information, please contact Dr. Mary Slevin/Dr. Chris Gill

Telephone: 028 70123041 / 028 70123181
